

YOUR FIRST VISIT

Our goal is to make your time with us as comfortable and productive as possible. Here are a few suggestions we would like to share with you prior to your first appointment to help make this happen:

1. You should plan to arrive a little early, approximately 15 minutes before your appointment time. Please see our contact us page for directions. You may want to call the clinic for specific driving instructions from home or work if you are not familiar with the area.
2. Your first visit will involve a thorough history and evaluation to ensure that our therapists gather all the information needed to design an effective treatment plan
3. Wear or bring loose-fitting, comfortable clothes. If we will need to examine the lower extremities you should wear or bring shorts. If we need to examine your shoulder, please bring or wear a sleeveless shirt.
4. Make sure that you bring any doctors scripts, any documentation of prior visits, insurance cards and your driver's license.
5. Following your first visit, your therapist will communicate with you and your physician regarding your treatment plan.

All of us at Colorado Injury Treatment Center are dedicated to addressing any special needs or concerns. Please call us with any questions you might have or stop by to meet us in person prior to your initial appointment. We look forward to working with you.
